# Create Your Coasters!

- ### Hints & Tips
1. Create your designs in the boxes below.\*
  2. Use bright colours to achieve a vibrant design.
  3. The background is white, so any part of the design not coloured will show as white.
  4. You can personalise your coasters with your own handwriting/message.

\*anything on or outside the dotted border will not be printed on the coaster  
the box is slightly oversized to fit as much detail as you can and will be "shrunk to fit"  
actual printable size = 90mm x 90mm

Have fun with your design - remember : use two sheets for your set of coasters!
